

ALERT! Coming to Minnesota *this Fall*

New teacher licensing standards about to take effect.

ALL Minnesota licensed teachers must teach what is clearly a Marxist worldview.

Example: Marxism divides people, as these standards do, into opposing groups, viewing people not as individuals, but as members of groups—**oppressor groups or oppressed groups. Oppressed groups must be liberated from the exploitation of their oppressors.**

The Teacher Licensing Board (PELSB), all appointed by Governor Walz, has created a Woke Curriculum Mandate coming **full force** to K-12 and early childhood education **disguised as teacher licensing rules.** They apply to licensed teachers **in public, private, and charter schools.**

All licensed teachers must adopt a leftist worldview to maintain their license to teach.

Who does this impact?

- Public school teachers, students, parents, and administrators
- Private school teachers, students, parents, and administrators
- Public and private higher education institutions with an education department
- School board member
- School board candidates
- School choice advocates

Systemic Racism
Implicit Bias
Gender fluid identity
Critical Race Theory
Sexual Grooming
Intersectionality
White Supremacy
Transgenderism

The new teacher licensing rules will bypass local school boards, the legislature, parents, nonpublic schools, and taxpayers.

Unless stopped, the new licensing rules also will undermine school choice!!!

Will legislative candidates, school board candidates, & candidates for statewide office demand Walz reverse this before they are finalized?
