

Petition to Legislators to Protect Kids from ‘Comprehensive’ Sex Education (CSE)

Whereas ‘Comprehensive’ Sex Education:

- Sexualizes children by exposing them to graphic and explicit language and pornographic illustrations;
- Grooms kids for early sexual activity by removing natural protective boundaries and by assuming students are or will be sexually active;
- Normalizes and teaches how-to engage in dangerous behaviors; teaches how to engage in anal and oral sex; all sexual activities are values free;
- Is promoted, lobbied and taught by Planned Parenthood, the largest teacher of CSE in Minnesota, and in the country;
- Allows unlicensed Planned Parenthood and gender identity activist groups into classroom to teach;
- Teaches “bodily autonomy,” the activist word for abortion rights and a claimed legal right to all sexual engagement at all times, no matter what age;
- Defines “medically accurate” as meaning multiple genders and encourages children in the earliest grades to question whether they are male or female;
- Undermines parental authority.

Therefore: We the undersigned Minnesota voters oppose any legislation that requires schools to teach CSE.
