

# A CRITICAL LOOK AT CRITICAL RACE THEORY

Critical Race Theory (CRT) has permeated schools, businesses and government. It calls the values and foundational principles which form our constitutional Republic of America, inherently racist and evil. They are denigrated as "white privilege," "whiteness," and "white fragility." - CPL Action Alert 9/9/2020

## The only 'cure' is the entire dismantling of Western civilization.

Western society is "systemically racist" and "implicitly biased" since it was predominantly white people who formed our government, laws, and institutions. Therefore, America cannot be 'redeemed' without wholesale destruction. This includes the destruction of her religious, political, educational, historical institutions and the family. America must be 'fundamentally transformed' by redistributing wealth and property. Capitalism is "evil" and the only noble goals are equal outcomes.

### CRT IS RACIST

It is a poisonous brand of identity politics grouping people by skin color. All whites are inherently racist and oppressors; non-whites are victims and entitled to violence and retribution.

### CRT IS MARXIST

CRT blends together Marxist transformational education and post-modern theory. Objective truth is a social construct and people are victims of circumstances.

### CRT IS EVIL

It divides and pits people against each other-shaming whites for being white. It is tyrannical-demanding ALL must submit to and kneel before its dogmas. Disagreement is not tolerated.

**BLACK  
LIVES  
MATTER**

Black Lives DO matter, but the organization is totally Marxist.  
<https://blacklivesmatter.com/what-we-believe/>

The 1619 Project architect, Nikole Hannah Jones argued that the 'real' America was founded in 1619 when slaves were first brought here making America 'irredeemably racist.' It is a 'reimagining' of history, ignoring the Founders abhorrence of slavery and all that America has done to end it. This 'curriculum' has been adopted in schools across the land.

## What CRT sounds like in school.

"We need to examine the role that whiteness plays in our macro-system of white supremacy," [Hopkins Superintendent Rhoda Mhiripiri-Reed proclaimed](#) to incoming teachers and staff.

"Let your revolution come through your instruction and your education," [said Mauri Friestleben, Principal of North Minneapolis High School](#).

"I will interrogate my whiteness and my anti-blackness...I will reflect on my own fragility and defensiveness. And I will create a culture where talking about race and confronting systems of whiteness is the norm," Intermediate District 287 Superintendent Sandra Lewandowski [recently told her staff](#).

Eagan High School -"As a predominantly white school, with a predominantly white faculty and staff, in a system created to support whiteness, we need to address the needs and concerns and respond to our students of color and their families," states a [webpage](#) on "anti-racism". "It means that we must be prepared to admit that Eagan High School creates, institutionalizes, and perpetuates racial inequities, whether they are academic, social, cultural, co-curricular, or otherwise. It means that we must acknowledge that students of color have been and continue to be marginalized in our classrooms and hallways, our stairwells, our gyms, our athletic fields, our administrative offices, and our grounds," states the website .Eagan High School."recently sent an email drafted by the "Principals' Team and Antiracism Reform Committee faculty," to parents, stating it has adopted "nine anti-racism goals" in order to address an education system "created to support whiteness". Eagan held weekly "faculty and staff discussions around reading 'White Fragility' and a variety of other articles, podcasts, and videos. The email also stated the school has made modifications to its in-school suspension policy so that it is "more restorative for students," they intend to hold "monthly community anti-racism listening session,"- Alpha News MN- Sept. 10, 2020

## WHAT CAN YOU DO?

- Find out if your school board members are BLM activists and/or CRT supporters. Address the board with your concerns.
- Know where ALL your candidates stand on CRT before voting.
- Strongly consider home education.
- Know that President Trump has ordered the end of CRT training for all Federal government employees; calling it "*divisive, false, and demeaning propaganda [that] should have no place in the Federal government.*"
- Support candidates, school board members who love America and will teach its factual history.
