

Regarding Islamic Indoctrination in Public Schools

FACTS ABOUT THIS ISSUE

With all due respect to individual Muslims, please be advised that the following is a quote from the Muslim Brotherhood in America:

“The process of settlement is ‘civilization jihadis proecess’ [sic] with all the word means. The *ikhwan* [Muslims] must understand that their work in America is a kind of grand Jihad in eliminating and destroying the Western civilization from within and ‘sabotaging’ its miserable house by their hands and the hands of the believers so that it is eliminated and God’s religion is made victorious over all other religions.” The Muslim Brotherhood Strategic Goal for North America, <https://investigativeproject.org/document/20-an-explanatory-memorandum-on-the-general>

- The Muslim Brotherhood is a large, strong, well-organized political movement in North America.
- The governmental system of the Muslim Brotherhood is Sharia Law. Contrary to what you are told, Sharia forbids recognizing any higher civil authority above itself. Sharia is antithetical to our constitutional law and hostile to our way of life.
- The Council on American Islamic Relations (CAIR), the Muslim American Society (MAS), and the Muslim Student Association (MSA) are all Muslim Brotherhood groups.
- The Minnesota Department of Education uses CAIR as its authority on what should be taught about Islam in our schools and what accommodations to Muslims should be made. (See <https://CPLAction.com/Islam-in-our-schools>)

CONCLUSION:

Sharia-compliant, Muslim Brotherhood groups should be removed from influence within Minnesota public schools.
