

Globalism

**United States sovereignty is under intense, orchestrated attack
by forces seeking to create a centralized global government.**

The philosophy of the globalists

The Cultural Marxism of Antonio Gramsci and Paulo Freire is the dominant worldview of globalism. In this philosophy there is no right or wrong—except that all words or actions that promote the globalist agenda of one-world Marxist government are seen as being good. Opposition to this philosophy is seen as bad.

Seventeen of the key fronts in the globalist war are listed below.

1. Reducing the population by releasing the Covid-19 virus and other viruses, preventing their effective treatment, and requiring and/or promoting lethal 'vaccines' while misrepresenting their dangers to the public.
2. Promoting a false man-made climate change crisis narrative and a false global government solution.
3. Enacting gun control and ultimately gun confiscation.
4. Engaging in massive election fraud.
5. Transforming all levels of education, including preschool, into cultural Marxist indoctrination centers and training youth in Marxist social activism.
6. Creating high inflation, massive government debt, high interest rates, and the destruction of the U.S. dollar.
7. Controlling all media outlets (six corporations own 90% of the media) to be Marxist propaganda-machines instead of outlets for reporting news.
8. Undermining the family, enforcing gender fluid ideology, and promoting transgenderism and sexual promiscuity.
9. Opening borders to uncontrolled illegal immigration.
10. Promoting and engaging in population reduction in the West.
11. Infiltrating the United States with Chinese operatives and spies.
12. Creating numerous crises including noxious chemical spills, fuel shortages, and destruction of the food supply.
13. Creating conflict and hatred between identity groups, including racial groups (CRT).

14. Rejecting the Hippocratic Oath, the Nuremberg Codes, the Ten Commandments, and all traditional morality. The globalists believe that lying to the public and creating mass genocide is acceptable as long as it promotes their goal of global government.
15. Rejecting Christianity and promoting satanism.
16. Undermining free enterprise and private property rights and instituting socialism.
17. Seeking to overthrow the United States as a sovereign nation and replacing it and other nation-states with a singular, Marxist, global government run by unelected elitists.

Persons and groups that are part of the globalist network.

1. The Chinese Communist Party.
2. Claus Schwab and the World Economic Forum. (See Schwab's book, *Covid 19: and the Great Reset*.)
3. George Soros and his Open Society.
4. The U.S. Central Intelligence Agency (CIA).
5. The U.S. Center for Disease Control (CDC) and other federal agencies.

7. Numerous large banks and corporations.
8. Elements of the Vatican.
9. The Democratic Party and many high-ranking Republican leaders.
10. Teachers Unions.
11. Numerous Chinese operatives in the United States and other Western countries, including elected and appointed officeholders.
