

Know the Language

As has been documented in previous UTT Blogs, the Muslim Brotherhood, Al Qaeda, and the Organization of the Islamic Conference (OIC – the largest international body second only to the UN made up of the heads of states of all Islamic nations), all state the imposition of Sharia and the establishment of the Caliphate (Islamic State) are their end objectives.

When leaders from known Muslim Brotherhood organizations or their allies speak, we must **translate** the English words they use into the meaning of the word as defined by Sharia. Once we do this, their intentions become crystal clear.

“Jihad” and “Peace”

As mentioned earlier, 100% of all Sharia only defines Jihad as “warfare against non-Muslims.” Islam divides the entire world into two parts: the Dar al Islam (the House/Abode of Peace) and the Dar al Harb (the House/Abode of War). Anywhere in the world where there is Sharia under Islamic rule is the Dar al Islam. The rest of the world is the Dar al Harb. The purpose of Islam is to reduce the Dar al Harb to non-existence until the entire world becomes the Dar al Islam – then you have “Peace” under Sharia. Once this is achieved there is no need for Jihad which is why it is not one of the five pillars of Islam.

“Suicide” and “Martyrdom”

Suicide is unlawful under Sharia. Martyrdom, or being killed in Jihad, is the only way under Sharia to guarantee entry into Paradise.

“Innocent”

The only innocent people under Sharia are Muslims. Non-Muslims are never innocent and are guilty of not following Sharia or subordinating themselves to it.

“Terrorism”

Killing a Muslim without right. Under Sharia Muslims can be killed for leaving Islam (Apostasy) and for killing another Muslim without right to do so under Sharia. Any other time a Muslim is killed it is “terrorism.” Under Sharia, an example would be American troops killing Muslims in Afghanistan and Iraq.

“Freedom”

Freedom **from** man-made laws. Only Sharia can be the law of the land.

“Justice”

Justice under the Sharia.

So, the next time you see a leader of the local Muslim Brotherhood Islamic Center in your hometown says *“We denounce terrorism and call for a protection of all innocents because we want freedom, justice, and peace here and around the world”* – don’t accuse him of lying because he isn’t. You need to adjust the reception on your end and translate with Sharia as the filter.

Finally, it should be noted that if readers would like to deepen their study on Sharia, they must purchase books written for Muslim audiences by Muslims who are recognized as scholars in the Islamic world. Anything other than this will be meaningless. Why? Because Sharia makes it a capital crime for Muslims to teach other Muslims something false about Islam. Go to your local mosque bookstore and buy books for Muslims on Islamic Law – and take cash.
