

Petition to Legislators for a Protect Minnesota Kids Act HF226 and HF229

Too many Minnesota kids are being abused leading to life-long hurt. They need you to be their voice. Join Minnesotans in signing the petition calling on the MN legislature to pass a bill to get tough on child predators.

Please sign our Petition to MN Legislators in favor of a Protect Minnesota Kids Act HF226 and HF229 to:

- Adopt the federal criminal code’s tougher sentencing for child predators with child sexual abuse imagery: receipt, distribution, and production all carry often serious mandatory prison time.
- Create a new crime of “Receipt,” with the same penalties as Dissemination, adopting the federal standard.
- Add “accessing with intent to view” to the crime of Possession, to close a potential loophole.
- Increase the allowable penalty for possession of child sexual abuse imagery when the victim is under the age of 12, adopting the standard from federal law.

Therefore: We the undersigned Minnesota voter supports a Protect Minnesota Kids Act to toughen penalties for child sexual abuse imagery and to increase law enforcement resources to combat child predators, especially those trading in child sexual abuse imagery.
