

What is SEL?

SEL is the delivery system, marketed as **DEI** (Diversity, Equity, and Inclusion), to embed **Cultural Marxist principles** like CRT, CSE, and Gender Theory in grades PreK-12.

Where did SEL originate?

The Collaborative for Academic, Social, and Emotional Learning (CASEL) is the command center for SEL. CASEL was created in 1994 and is grounded in the work of a group of **occultists and new age thinkers** from the Fetzer Institute.

What is the goal of SEL?

SEL trains young people for **revolutionary activism**, not academic knowledge.

Who funds SEL?

CASEL is funded by the Bill Gates Foundation, the Zuckerberg Institute, and other **global corporate entities**. **BILLIONS** of tax dollars fund SEL programs.

How is SEL deceptive?

SEL uses **misleading language** like “critical consciousness”, “culturally sustaining”, and “anti-racist” to **psychologically manipulate children** to disdain America and **embrace global citizenship**. SEL is emotion driven.

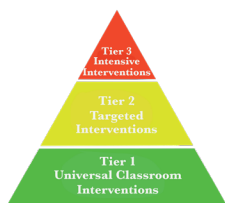

How does SEL ‘work’?

SEL deploys a massive **data collection** system to create life-long **psychological profiles** on every student to “map” their “**cultural values**”, **attitudes** and **beliefs**.

SEL teaches “**mindfulness**”, which is rooted in eastern religious meditative practices.

SEL focuses on “**mental health**” and feelings, rather than knowledge and critical thinking.

SEL **screens** all students and **categorizes** them as either “oppressors” or “victims” which starts all of them at **Tier 1 level trauma**.

SEL interprets all curriculum, data, and information through an “**equity lens**” of oppression or victimization.

SEL **requires equal outcomes** by racial/ethnic/gender identity groups. To the achieve this, the oppressed groups take from oppressors groups.

SEL-trained teachers, social workers, and counselors teach **new cultural narratives** to **discredit** our history and **transform** our cultural values.

SEL is the **means** to implement the UN and the World Economic Forum Sustainable Development Goals (SDGs) for a **utopian global government**.
