## **New children's book teaches kids how to take an active role in the political process**

*Barbara Anderson announces publication of 'The (Mostly) True Story of Taylor Swine the Political Pig'*

CHAMPLIN, Minn. – A cute pig runs away to pursue her dream and discovers the importance of family while learning how to take an active role in the political process in Barbara Anderson's debut children's book, "The (Mostly) True Story of Taylor Swine the Political Pig" ([published by Archway Publishing](#)).

Taylor Swine is a little pig with a big dream; she wants to be a politician. She soon learns that not everyone can be a politician, but everyone can help with campaigns. Featuring illustrations by Rachel Gasper, the pigtales teaches children how they, too, can play a role in helping good people get elected to public office.

"I want readers to realize the importance of political involvement and have a desire to help with a campaign," Anderson explains. "There is currently no other book on the market that instills in young children a desire to help with political campaigns- even in some small way. This story will also motivate parents to pass the torch of freedom to future generations by encouraging their children to take an active role in the political process."
