

## **PETITION TO “TRASH THE TOOLKIT”**

We the undersigned oppose ANY implementation of the policies recommended in the Minnesota Department of Education’s “Toolkit” in our schools. We demand that Governor Dayton and Education Commissioner Cassellius rescind the Toolkit and immediately stop these efforts to coerce and bully teachers, parents and children into embracing a false reality that is not grounded in biology or science. This toolkit was developed in secret and hidden from public scrutiny by a committee comprised solely of gender activist groups and **NOT by elected officials.** The Toolkit is harmful to ALL Minnesota kids, including those who are gender confused.
