Every Parent Can Do This!

WHAT THEY SAY IT IS

SEL is just a program to teach children how to manage emotions and get along.

WHAT IT REALLY IS

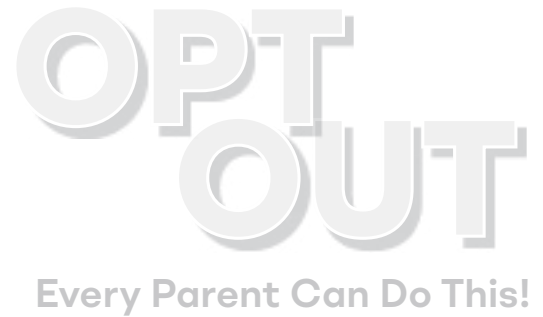

SEL is a Trojan Horse, disguised as mental health, to usher in all the indoctrination tentacles that we see in K-12 education.

SEL

COURAGE
IS A
HABIT

trauma informed practice

WHAT THEY SAY IT IS

Social Emotional Learning is a trauma-informed practice in education that addresses the needs of children with learning disabilities and challenges such as autism. It also addresses the influence and impact of factors on students such as systemic racism, microaggressions, and bullying.

WHAT IT REALLY IS

SEL treats ALL children as if they have some sort of trauma. However, their definition of trauma is nonsense such as "unconscious racial and gender biases"; the oppressed and oppressor model. SEL creates trauma where there is none so that schools can justify more SEL thereby creating more trauma to treat.

The good concepts that SEL hijacked have always been done on a case-by-case basis for children who have experienced real trauma.

Single Incident Trauma

accident • sudden loss • witnessing violence

Complex Trauma

ongoing abuse • domestic violence • war

Developmental Trauma

neglect • abandonment • physical abuse

SEL

Added

Intergeneration/Historical "traumas"

slavery • genocide • colonialism

New traumas include ALL children due to "unconscious racial and gender bias"

Creates a system of trauma so they can treat more trauma
